3. Analysis of increases and decreases in sales

BELLUNA

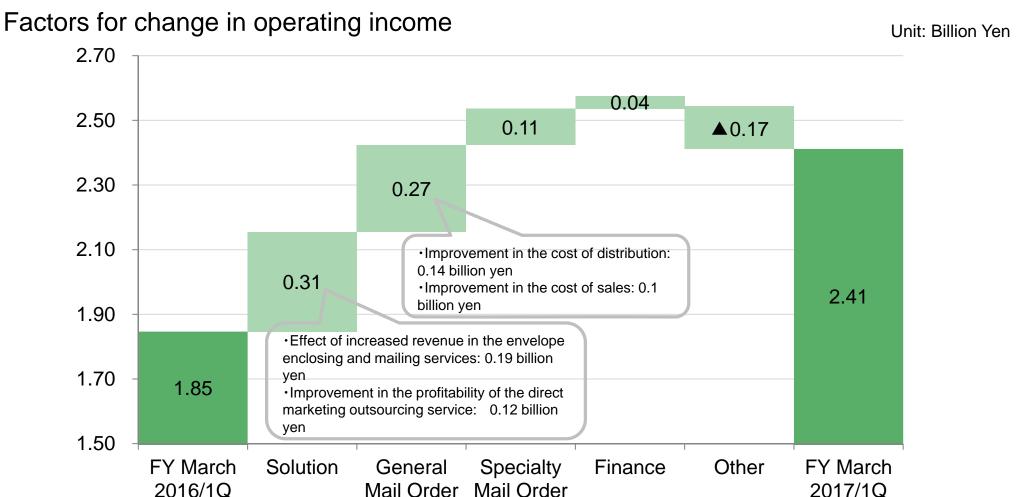

The increase in net sales was driven by the Specialty Mail Order Business, Retail Store Sales Business, and the Solution Business. Although net sales in the General Mail Order Business rose slightly, compared to a year ago orders increased 8.1% in June.

4. Analysis of increases and decreases in operating income

BELLUNA

The Solution Business remained strong due to the effects stemming from increased revenue in the envelope enclosing and mailing services and improved profitability in the direct marketing outsourcing service. The General Mail Order Business also remained strong, thanks to the improved cost of distribution and cost of sales.

5. Consolidated Balance Sheet

Assets rose, mainly reflecting increases in merchandise and finished goods and real estate for sale in process. On the other hand, liabilities rose, partially due to increased notes and accounts payable - trade and interest bearing liabilities.
